JUNE 2024 EDITION

INTRODUCTION

From the Principal's Desk

Namaste,

I hope you are doing well and enjoying your summer vacation jubilantly. It is with great pleasure that I present to you the highlights from the Principal's Desk for the month of May.

First, I would like to share that the CBSE announced the results, and our Vikashites excelled with their wonderful performance. My hearty congratulations to the students, teachers, and parents for their unwavering support. As learning is a continuous activity, students must always hone their skills, seek help from their teacher mentors, and strive for better performance. We ensure that we strive to provide better education to our students. During the summer, our Vidya Vikash students went on a trip to Manali, where they Immersed themselves in fun, ice, and mountains. They had a pleasant time in the lap of nature and returned with many joyous memories.

To foster excellence in classroom teaching and academic activities, Vidya Vikash's teachers will participate in Capacity Building Programs in June. They will be trained and guided by great mentors and will have the chance to share their academic ideas with the broader teaching community. In this way, all our teachers will be ready before the reopening.

In closing, I am filled with gratitude for the unwavering support and dedication of our school community. Your contributions, whether big or small, have made a significant impact and have helped create a positive and nurturing environment for all. I look forward to seeing all that we will accomplish together in the days ahead.

Warm Regards
- Mr. Kiran Dommata
Principal

CONCEPT COLUMN

Summer Vibes

As the month of April arrives, it brings with it a bundle of treasure ; excitement of beginning of "New Academic Session" , a break from regular school for students in the form of "Virtual Online Classes" , eagerness of getting "Summer Vacation" from school and indulging students themselves into the baggage of "Holioliday Homework " from school . Where summer vacations provide an opportunity for students to catch up on schoolwork and their school projects, visit new places , increase their general knowledge , spend some quality time with their family members by learning new things and ignite their skills of creativity in arts and crafts. The purpose of summer vacations is to give the students a little rest from the excessive heat of summer season , for which summer vacation is the best option to assist the slow learner students and recover them in weaker subjects where they find difficulty . As April month begins , every child looks forward to the summer holidays as a time of their rest and relaxation . The most important thing is to enjoy and make the most of this time by using it fruitfully. Overall, summer vacation is very important for the complete development of every student . Before the beginning of summer holidays , at Vidya Vikash Concept School Raigarh, students have gone through the medium of virtual classes on Zoom Meeting scheduling with the timetable by their respective subjects teachers.

ROTARY CLUB

Painting Competition

We are thrilled to announce that our school students participated in the painting competition organized by the Rotary Club, and they made us proud!

Out of numerous talented participants, our student, Mahek Dewangan (student of Class XI Science), secured the second position with her stunning artwork. Her creativity and skill were evident in her painting, which impressed the judges and audience alike.

Another student, Aman Patel (student of Class XII Commerce), received a special prize for his outstanding work. His painting showcased his unique perspective and talent, making us proud to have him represent our school. The competition was a great opportunity for our students to showcase their artistic skills and creativity. We are proud of all our participants for their hard work and dedication.

Congratulations to Mahek Dewangan and Aman Patel on their achievements! We look forward to seeing more of their artistic endeavors in the future.

MANALI TRIP

Recently, a group of 38 students from Vidya Vikash School went on a trip to Manali. This excursion was part of a school program aimed at providing students with experiential learning opportunities and exposure to new environments. Manali, a popular hill station in Himachal Pradesh, offers a variety of attractions and activities that make it an ideal destination for the students. The group visited several notable sites, including the Hidimba Devi Temple, an ancient temple surrounded by cedar forests, and Solang Valley, known for its adventure sports like paragliding and zorbing. The students also had the opportunity to explore Rohtang Pass, which provides breathtaking views of glaciers, peaks, and valleys. In addition to sightseeing, the trip included educational elements where students learned about the local culture, history, and ecology of the region. The experience was designed to be both enjoyable and informative, helping students to gain a broader perspective outside the traditional classroom setting. Overall, the trip was a success, providing the students with memorable experiences and a deeper understanding of the diverse natural and cultural heritage of India.

LET'S GO

ADVENTURE

Educational and Recreational Benefits

Cultural Exposure

The trip provided students with firsthand experience of the rich cultural heritage of Manali and its surroundings.

Adventure & Learning

Activities like trekking, paragliding, and visiting historical sites offered both fun and educational value.

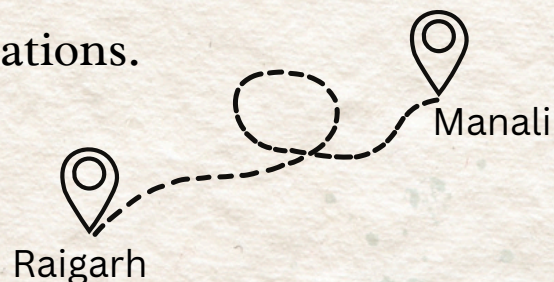

Team Building

Traveling together and participating in group activities helped strengthen friendships and improve teamwork skills.

Nature Appreciation

The natural beauty of Manali instilled a sense of appreciation for the environment and the importance of ecological preservation.

Overall, the 10-days trip to Manali was an enriching experience for the Vidya Vikash School students, combining education, adventure, and cultural immersion in one of India's most beautiful hill stations.

Virtual Learning

Online classes and learning have emerged as a new method of teaching, especially during the COVID-19 pandemic. Online classes have gained immense popularity due to several advantages such as time flexibility and affordability. Traditional teaching methods include face-to-face interaction between teachers and students. However, in online learning, interaction takes place on digital platforms through videos, audio, graphics, and more.

Due to the sudden announcement of school closures by the state government, Vidya Vikash Concept School has taken the initiative to run online classes for students. Students have partially completed their syllabus joyfully and have learned through various platforms, making learning a fun and engaging experience. These activities have made online classes more enjoyable compared to traditional, monotonous classes. In this way, students remained engaged with the learning process and joyfully grasped the concepts of each topic.

माँ का आँचल

माँ क्या लिखूं तुझपे तू कहाँ समझ में आती है ।
आज भी रोने का मन करे तो तेरी आँचल नजर आती है ।
कैसे रोटियाँ गिनते गिनते तेरी भूख मर जाती है ।
बच्चों की खुशियाँ कैसे तुझे सारी रात जगाती है ।

हाँ क्या लिखूँ तुझपे तू कहाँ समझ में आती है ।
बच्चों की हर आहट तुझे नींद से जगाती है ।
कैसे हर चोट पे तू ममता की हल्दी लगाती है ।
हाँ क्या लिखूँ तुझपे तू कहाँ समझ में आती है ।

माँ तू हमारे लिए हर बला से लड़ जाती है ।
माँ हमे हर सूख दुख में तू नजर आती है ।
हाँ क्या लिखूं तुझपे तू कहाँ समझ में आती है ।

Interesting Facts about **MATHS**

1. Every odd number has an 'E' in it.

- 1 - One
- 3 - Three
- 5 - Five
- 7 - Seven
- 9 - Nine

2. 9 is known as the magic number:

$$\begin{aligned} &- 8 \times 9 = 72 \quad - 7 + 2 = 9 \\ &- 3 \times 9 = 27 \quad - 2 + 7 = 9 \end{aligned}$$

3. Four is the only number where the number of letters in its name equals the number itself.

$$\begin{aligned} &- \text{FOUR} \\ &- 1 + 1 + 1 + 1 = 4 \end{aligned}$$

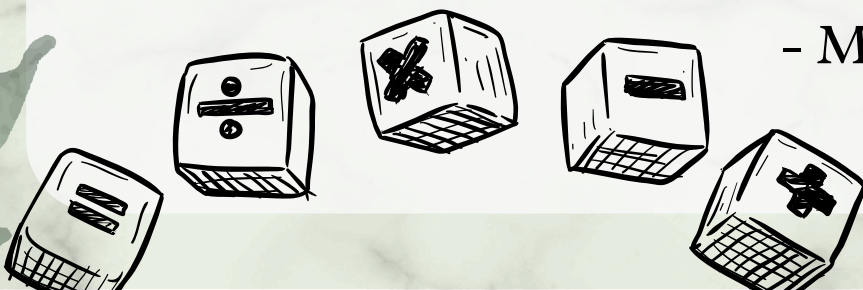

4. "FORTY" is the only number whose letters are in alphabetical order.

5. When you add one even number and one odd number, you get an odd number.

6. When you add two even numbers, you will get an even number again.

FORGE OF RESOLVE

The symphony of hardwork and dedication

In the forge of sweat and toil,
where dreams take shape,
Where the echoes of effort resound,
and hopes escape.

Amidst the trials and tribulations, in the crucible of strife,
Lies the essence of greatness, the rhythm of life.

With hands called and hearts afire, we march on,
Each step is a testament to the dedication we've drawn.
Through the darkest nights and the brightest days,
We persevere, unwavering, in our determined ways.

For hard work is the hammer that molds our fate,
And dedication, the flame that never abates.
With every hurdle conquered and every obstacle overcome,
We rise, steadfast, until our journey is done.

In the symphony of sweat and sacrifice, we find our song,
A melody of resilience that propels us along.
For in the end, it's not just the destination we seek,
But the journey itself, where our souls speak.

So let us embrace the grind, with unwavering resolve,
For in the crucible of hard work, we evolve.
And with dedication as our compass, we'll chart our course,
To the summit of success, with unyielding force.

LOST IN REFLECTION

Growing the sadness inside me,
Sometimes I want to be alone and free.
I don't really know what I want to be,
But aren't some friends really mean?
Can't I just see what was going on in my heart,
I don't know! Did I really get a restart?
Was I just riding along life's cart?
For real, this wasn't supposed to be my life's part.
Yes, I did feel alone,
But I do know I'm not wrong.
I don't care; I am not grown,
Life was all out of the zone.

Reader's Digest

1. Ephemeral - Lasting for a very short time. Often used to describe fleeting moments or experiences.

- Example: The beauty of a sunset is ephemeral, disappearing within minutes.

2. Lugubrious - Looking or sounding sad and dismal.

- Example : His lugubrious expression made it clear that he was deeply affected by the news.

3. Quixotic - Exceedingly idealistic; unrealistic and impractical.

- Example: His quixotic quest to change the world often led him into trouble.

4. Obfuscate - To render obscure, unclear, or unintelligible.

- Example : The politician's speech seemed designed to obfuscate the real issues at hand.

5. Ineffable - Too great or extreme to be expressed or described in words.

- Example: The beauty of the Grand Canyon at sunrise was ineffable.

Idioms

1. Burn the midnight oil - To work late into the night.

- Example : She had to burn the midnight oil to finish the project on time.

2. Throw in the towel - To give up or admit defeat.

- Example: After several failed attempts, he finally threw in the towel.

3. Beat around the bush - To avoid getting to the point.

- Example : Stop beating around the bush and tell me what you really think.

4. Bite the bullet - To endure a painful or difficult situation that is unavoidable.

- Example: He had to bite the bullet and accept the lower-paying job.

5. Cut to the chase - To get to the point without wasting time.

- Example: Let's cut to the chase: are you joining the project or not?
